ABOUT ME

Results-driven Software Engineer with around 5 years of experience in Java, J2EE, and web application development. Seeking a challenging role to leverage my expertise in software development and contribute to innovative projects.

SKILLS

- ✓ **Languages** : Java, J2EE, SQL
- ✓ **Frontend Development** : HTML, CSS, Thymeleaf, Javascript
- ✓ **Backend Development** : Hibernate, Spring Boot, PostgreSQL
- ✓ **Version Control** : Git
- ✓ **Tools & Technologies** : RESTful APIs, Jenkins, GitLab

EXPERIENCE

Software Engineer
Qualian Technologies Pvt Ltd, Chennai, India

Feb 2021 – Present

- ✓ Strong exposure to ERP-based systems, including implementation, customization, and production support.
- ✓ Provided onsite development and support at the Ministry of Transport (MOT), Saudi Arabia, directly engaging with stakeholders to deploy and maintain mission-critical applications.
- ✓ Worked extensively on ERP modules involving SCM and Finance workflows.

PROJECTS HANDLED

Project : Onsite ERP Development & Support – Ministry of Transport (MOT), Saudi Arabia

Feb 2023 - Present

Technologies Utilized : Java, Hibernate, PostgreSQL, GitLab

Accomplishments:

- ✓ Worked as an Onsite Java Developer at the Ministry of Transport (MOT), Saudi Arabia, providing direct support and implementation for critical business modules.
- ✓ Delivered end-to-end solutions for ERP modules, integrating backend APIs with frontend functionality using Java.
- ✓ Continuously improved the ERP system based on the client feedback and evolving business requirements.
- ✓ Developed and maintained critical modules ensuring the software's scalability and sustainability.
- ✓ Provided onsite production support, resolved real-time technical issues, and conducted knowledge-sharing sessions with internal stakeholders.

Project : Supplier Portal
Oct 2022 – 2023

Technologies Utilized : SpringBoot, Postgres, JQGrid

Accomplishments:

- ✓ Developed RESTful APIs: Designed and implemented RESTful APIs using Spring Boot to support a customer management system.
- ✓ Database Integration: Integrated with Postgres using Spring Data JPA, streamlining data access and persistence.
- ✓ Security Implementation: Enhanced application security by implementing Spring Security for authentication and authorization, ensuring compliance with industry standards.
- ✓ UI Implementation: Implemented UI using JQGrids library for better visualizing the customer data and handling it.

Project : ERP system Development & Support – Urbanrise Alliance
Oct 2021 – 2022

Technologies Utilized : Java, Hibernate, PostgreSQL, GitLab

Accomplishments:

- ✓ Worked on ERP projects for Urbanrise Alliance, providing both development and production support for SCM and Finance modules.
- ✓ Designed and optimized PostgreSQL queries for high-performance data handling.
- ✓ Collaborated with cross-functional teams to translate business requirements into technical modules

EDUCATION

Qspiders, Chennai, India 2020

✓ *Related coursework:* Java, SQL

Bachelors of Engineering in Computer Science

SKP Engineering College, Tiruvannamalai, Tamil Nadu, India 2019

✓ *Related coursework:* Software Engineering
